

# English Lesson 3

Adding to our setting description  
planning

This week, we are going to be writing a setting description based on the different stages of the monkey's journey in this video:

<https://www.youtube.com/watch?v=24FNE60FRzw>

Yesterday, you should have written down some nouns that you can describe for each stage of the journey like this:

For example

1) Outer space

planets, stars, galaxy....

2) Just above Earth

rivers, roofs of buildings, trees

3) On the streets of Earth

cars, windows, piles of rubbish...

Today we are going to be adding detail to our nouns (but we will still be writing in NOTES, we shall write in sentences tomorrow).

Let's look our first section of our description:  
What we can see in space....

- Rewrite one of your nouns on it's own with space around it.....

stars

We need to describe our noun BEFORE and AFTER just like we have done in English many times.

Go to the next slide.....

# stars

- Try and think of two adjectives that could describe stars....

Bright, gleaming stars.....

If you are struggling to find some adjectives, use google to find different words/thesaurus.....

....or try and use some of the new vocabulary from the other day!

We now have bright, gleaming stars.....

- Lets add some more detail to the end of our noun...
- Think about what could the stars be doing? Where could they be doing it?
- Here are some examples - danced through the night sky OR illuminated the planets surrounding them OR glistened powerfully through the clouds.

So we have now turned  
stars  
into

bright gleaming stars illuminated the night  
sky.

## Your task

Can you now add more detail to all the rest of your nouns in your first section - don't forget to add detail BEFORE and AFTER the noun.

# Section 2 - Just above the Earth

- We are now going to add more detail to the nouns in our second section...

## 2)Just above Earth

rivers, roofs of buildings, trees

Go to next slide for help.....

Remember, Earth isn't looking very nice at this point! Also, don't forget to keep using your new vocabulary from the other day!

Remember you have to add detail BEFORE (add adjectives) and AFTER (what were they doing? Or use a relative clauses) your nouns....

buildings

- Tall, grey buildings poked menacingly out from the ground....
- Murky, brown river which was snaking it's way around the streets.

relative clause

# Your task: You now need to finish the rest of your work....

- Add detail to each of your **nouns** for the rest of the sections
- Remember to add detail **BEFORE** the **noun** by using **adjectives** - try and use some of the ones from the other day if you can!

And add detail **AFTER** the **noun** - either by saying what they are doing **OR** by using a relative clause (which, what, who)
