Miss Rea's Setting Description

The ornate door swung open and Harry's jaw dropped at the magnificent sight before him. Stretching out before him, were rows and rows of tables, lined with hundreds of student, who were dressed in the strangest uniforms. Harry could smell the delicious scent of food, which was piled high on plates in the middle of the tables- he couldn't wait to eat it! The sounds of clattering cutlery and chatter echoed around him and he could feel a buzz of anticipation run through him. Suddenly looking up, he could see magical candle which floated in the air, their flames flickering as though they were dancing. Beyond that, was an even stranger sight: the ceiling was in fact the midnight sky, a scud of cloud floated across the sky, concealing the moon and the sparking stars. Taking a deep breath Harry stepped towards the sorting hat.

Your turn!

Now have a go at writing you own description.
You could do this on Teams via the worksheet, on
paper and take a photo or type it and email it. I
look forward to reading them!
