RULE BRITANNIA

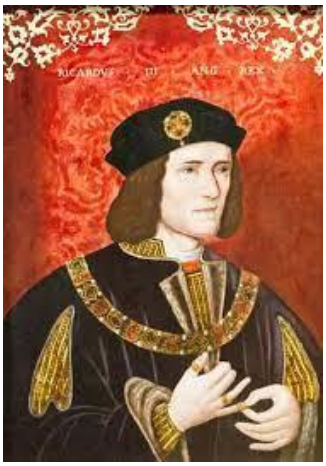
SPRING

GEOGRAPHY

This term we have learnt all about the 4 countries of the United Kingdom; England, Northern Ireland, Scotland and Wales. We identified each capital city, flag, national flower and traditional food eaten in each country.
We also looked at some aerial views using Google Maps to locate some things in our local area.

HISTORY

In History, we recognised the lives of significant people by finding out about the lives of Alice Hawkins and a number of famous people that were from Leicester. The children looked at a variety of words that can be used to describe things that have happened in the past, present and future.



MUSIC

In Music we looked at recapping rhythm and learnt how to represent music using graphic notation. The children also learnt about high and low pitch and then went on a scavenger hunt around the school to investigate what objects make high and low pitch sounds.

YEAR
1

MATERIAL WORLD

SCIENCE

This term we are learning all about different materials. We started by grouping objects by what material they are made from, then went on a material hunt around the school.

We also learnt about properties of materials and discussed why some materials are best used for certain objects.

DESIGN AND TECHNOLOGY

In DT we have been looked at the construction and uses of different bridges. Children have had some hands on experience of planning, designing and constructing their own bridge using different materials. This linked really well with our Materials topic and gave children a chance to develop skills such as cutting, folding, rolling and tying.
